

WSSSC Work Plan 2009-2010

Goals	Strategies	Outcomes
Goal 1. Collaborate with stakeholders to develop and enhance services for students and student services providers.	<p>1. Advocate for ongoing system technology improvements for providing services to students and enhancing accountability reporting for programs. WSSSC will provide representation on system technology committees.</p> <p>2. Information will be provided at quarterly meetings concerning technology opportunities & resources.</p>	
Goal 2. Provide professional development opportunities to the membership on a regular basis.	At each commission meeting professional development items will be included on the agenda. Regularly share best practices in a variety of arenas.	
Goal 3. Strengthen skills and resources for providing Student Services learning outcomes and assessment documentation.	Include training and materials on learning outcomes and assessment at quarterly meetings. Share tools and resources widely among members.	
Goal 4. Provide leadership in system planning & development for all issues related to student services.	Members will actively staff system committees and task forces and then provide followup reports to the commission.
